

SILVER MOUNTAIN TARGETS

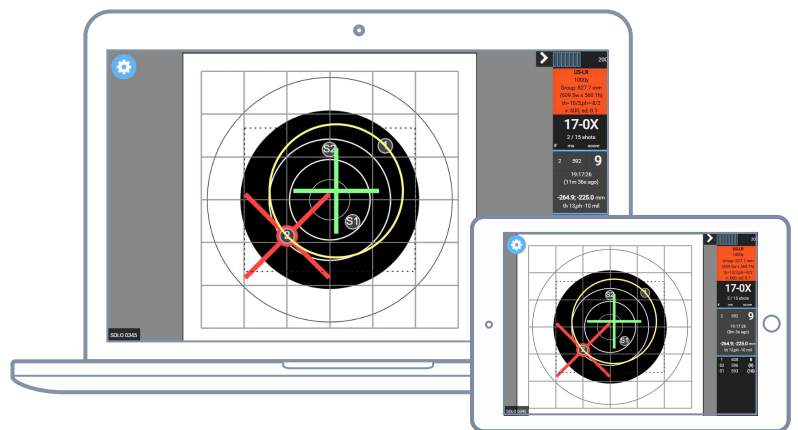

SOLO - One Target System

Mobile hit indication for single shooters

The SOLO One Target System (OTS) offers a compact, efficient solution for training shooting with supersonic calibers on a single lane – ideal for distances from 50 to 1000 m (free line of sight). Quickly set up, easy to operate, and compatible with common equipment.

- ▶ Ideal for outdoor shooting ranges
- ▶ Fast setup & simple operation
- ▶ Efficient solo training – no complicated technology
- ▶ Compatible with existing target frames & holders
- ▶ Visualization of ring targets (ISSF, BDMP, BDS, NRA, etc.)
- ▶ Shot analysis & grouping display in real time

- ▶ Power supply via common power banks
- ▶ Wireless WiFi data transmission (2.4 GHz, up to 1000 m)
- ▶ IP44 – splash-proof
- ▶ Optional server connection via S10/S25 & software module
- ▶ Squadding function for expansion to multiple shooters
- ▶ Displays all ring, hunting, and polygon targets
